

# EUROHACKTRIP

Connecting Tech Startups  
from Africa & Europe.

# Who We Are...

We are a group of tech startups from Africa on a growth hacking expedition in European tech scene. We are looking for growth opportunities for our startups.

# Who We Are...

We are entrepreneurs, software developers, electronic engineers, designers, marketers and business developers in who represent a number of startups from Africa.

# What We Do

- We will tour innovation hubs, big events and other technology hotspots
- We will be looking for opportunities for marketing, investment and partnership.
- We will also visit other startups and tech communities and exchange with them.

# How We Do It

- We co-organize pitching events for entrepreneurs to get good feedback.
- We will attend big events to pitch to new customers, partners and investors.
- We will put together a reality film documentary to review the whole trip.

# Why We Do It

- We are looking for more knowledge, funding, partnerships, market to grow our startups.
- Technology is changing rapidly and innovation is taking different forms around the world.
- In order to solve some local problems we may need to approach them with a new twist.

# Our Expectations

- To expose African entrepreneurs and startups to a bigger market, networks & opportunities.
- To bring together people from different cultures to learn and build long lasting ties.
- To increase awareness about the importance of diversity and inclusion in technology.

# How it Started...

- We were inspired by hackers who travelled from Europe to East Africa to witness the existence of tech hubs emerging in Africa - AfricaHackTrip, 2013 <http://africahacktrip.org>.
